Tony Miller Joins Loup Power District

COLUMBUS, Neb. — Tony Miller of Columbus has joined Loup Power District as a Plant Operator at the Columbus Powerhouse.

As a plant operator, Miller monitors and controls the three generation units at Columbus and remotely controls the Monroe Powerhouse. He also works closely with the Genoa Headworks to divert maximum Loup River water into the District canal system for power plant generation.

His other duties include coordinating generation with NPPD's control center in Doniphan and monitoring Loup's 115 kV and 34.5 kV subtransmission system.

Miller is a graduate of Fort Calhoun High School. He graduated from Nebraska Law Enforcement Training Center and attended Maintenance Management school while serving in U.S. Marine Corps. He most recently worked in zoning and maintenance for the City of Humphrey.

He and his wife, Kim, have two children— Cameron and Courtney.

ABOUT LOUP POWER DISTRICT: For more than 80 years, Loup Power District has provided reliable, low-cost electricity to customers in Boone, Colfax, Nance and Platte Counties and part of Madison County. The District also provides economic development and five parks in these areas. More information about Loup is available at www.loup.com.
